GOPHER CONTROL REBATE PROGRAM

SARM is administering a Gopher Control Rebate Program for the Province of Saskatchewan. The objective is to develop a long-term, sustainable management system that includes registered control products and uses non-chemical means to keep infestations below economic threshold levels. The rebate will cover up to 50% of registered gopher control product expenses (less any taxes) used in 2023. The rebate will cover 50% of raptor platform and nest box materials expenses (less any taxes) to a maximum of \$125.

Program Details:

- Copies of invoices for each registered gopher control product (one per claim form) must accompany each claim form
- Legal land descriptions or GPS co-ordinates to three digits must be included for the locations of the raptor platforms and nest boxes
- Approved registered gopher control products are listed on the back of this page
- Completed claim forms and required invoices are to be submitted to the RM Office no later than **4 pm July 26, 2023**

Claim forms are available on the RM of Manitou Lake website
www.rmmanitou.ca

Sincerely,

RM of Manitou Lake No 442 Council
